

Internship scholarship program

Application form

Program objectives

Through its internship scholarship program, Sentinel North seeks to foster the development of young scientists able to tackle and help resolve complex northern issues, and to promote the sharing of knowledge and experience across borders by facilitating graduate student mobility and placement at the world's top universities and laboratories.

More specifically, the program aims to encourage students to:

- Acquire new skills and abilities to understand and analyze northern issues and/or to master technologies that have applications in the North
- Establish international ties and networks by taking advantage of outstanding research opportunities
- Share what they learn with their peers and the community

Who it is for

Full-time Masters or Ph.D. students at Université Laval, working on a research project whose objectives are in line with Sentinel North's research program (second semester of their program).

Eligibility criteria

Applicants must also meet all the following conditions to be eligible for the program:

- Have a grade point average of at least 3.0/4.3 in the Master's program;
- Propose an internship whose objectives are in line with the research program of Sentinel North as presented in its conceptual framework.
- Propose an out-of-province internship lasting one to six months
- Propose an internship at a host institution eligible for the program (see the Host institutions and supervisors section for details)
- Have financial support in addition to the Sentinel North internship scholarship for remaining expenses (e.g., transportation and visa fees, training costs, etc.)
- Propose knowledge transfer activities with peers and/or the community

To remain eligible for funding during their research study period abroad, applicants must maintain full-time student status in their graduate studies program at Université Laval.

Application procedure

You must send your application and all required documents listed below in one email to : formation@sn.ulaval.ca. The subject of the message must begin with your last name and first name and clearly state the name of the scholarship program you are applying for.

- Your short résumé (up to two pages);
- A copy of your university transcripts (bachelor's and Master's degrees and the Ph.D. program in progress);
- A recommendation letter from your UL supervisor or co-supervisor justifying the relevance and added value of the internship to your academic progress;
- The résumé of the research supervisor in charge at the host institution;
- A letter of invitation addressed to the applicant specifying the dates of the internship, the services to be provided, and the support to be offered by the host institution;
- A proof of co-funding for the internship (letter from your supervisor, award letter for additional funding, your own contribution, etc.).

Full instructions for submitting an application and detailed program conditions are available on the Sentinel North website. For more information on Sentinel North scholarships, please contact: Marie-France Gévry, Training programs coordinator at SN (marie-france.gevry@sn.ulaval.ca).

Part C – Justification of the application and description of the internship

C1) Information of the host institution

Host country :		City and state/province (if applicable) :	
Name of the host institution :			
Address of the host institution :			
Research director at the host institutione	Name :		
	Affiliation :		
	Phone :		E-mail :

C2) Internship description

Period for the internship (semester(s)):		Length of the internship (months) :	
--	--	-------------------------------------	--

Describe the principal components of research activities planned during your stay abroad based on the following sections.

Context and objectives (maximum 2,400 characters, including spaces)

Methodology, timeline and expected outcomes (maximum 2,200 characters, including spaces)

C3) Justification of the application

Justify your application by explaining how the internship ties in with the main topic of your research project and the potential benefits that you would derive from working at or attending the host institution in relation to your current research objectives. (maximum 2,400 characters, including spaces)

Explain the multidisciplinary nature of the internship and at this how it is related to the Sentinel North research program and conceptual framework . (maximum 1,600 characters, including spaces)

Describe the knowledge transfer activities that will be undertaken with peers and the community during and/or at the end of the internship. (maximum 750 characters, including spaces)

C3) Other information

Will the internship for which you are applying for a scholarship be the subject of a credit course? YES NO
If yes, specify the name and the code of the course and the number of credits that will be allocated.

Part D – Budget

D1) Estimated cost of the internship

Category	Type of expenditure	Amount (CAD)	Sub-total
Travel expenses :	International transport :		
	Local transport :		
	Visa fees :		
Living expenses :	Monthly allowances :		
	Length of stay (months) - <i>see C2</i>		
Other expenses :			
TOTAL costs :			

D2) Other confirmed or pending sources of financial support to support your participation in this internship

Scholarship or award name	Organization / Program	Amount	Application status

I confirm that the information provided in my application is complete and accurate and that I have read and understand the eligibility conditions and detailed program conditions available on the Sentinel North website (www.sentinelnorth.ulaval.ca).
